

# USB-mBM-mBM-V1A

## 1. Description:

USB-mBM-mBM-V1A is a simple mini USB2.0 Type B Male to mini USB2.0 Type B Male pass-through adapter breakout board. It brings all 5 pins of two mini USB2.0 Type B connectors to screw terminal blocks and headers for easy testing, prototyping and breadboard connection. All 5 pins of the mini Male connector directly connect to another mini Male connector. There is an open circuit between the two VCC pins where you can use a jumper to short it or use the two pins in series to measure DC current. User can also use the two 5 pins headers on both sides of the breakout board to connect to breadboard or prototype PCB.

## 2. Features:

- All 5 pins of a mini USB2.0 Type B Male and a mini USB2.0 Type B Male connector brought out to headers and screw terminal blocks
- All 5 pins of a mini USB2.0 Type B Male connector directly connect to another mini USB2.0 Type B Male connector.
- Open circuit between VCC pins for measuring current.
- Various connecting method chosen by users.
- 1.0"(25.4mm)X0.7"(17.78mm) board dimensions

## 3. Parts:

- 1) 1pc X USB-mBM-mBM-V1A PCB
- 2) 2pc X mini USB2.0 Type B Male Connector
- 3) 1pc X 5pin 0.1"(2.54mm) spacing terminal block
- 4) 1pc X 12pin 0.1"(2.54mm) header
- 5) 1pc X 0.1"(2.54mm) spacing jumper
